RICHARD FLINT SEMINARS

Richard Flint has been speaking and changing lives for over 30 years. His staying power comes from a strong following of successful corporate and association clients that invite him back year after year.

Ready to change your company or association?

I am honored to join **Kingsmill Resort** in offering you the opportunity for us to work together!

For more than 30 years, I have traveled this globe with one mission – *helping Associations, Companies and Individuals find the pathway to the success that awaits them.*

I believe there are several areas of training needed today –

TECHNOLOGY
LEADERSHIP
SALES
AND PERSONAL

These are all tied together by one common factor: ***the behavior of people.***

Most programs deal with the first three and don't get into the personal, yet 98% of all issues in business deal with *the behavior of people*. This is my area of expertise, and I am known for my ability to tie behavior to achieving success through well-researched processes.

I would be honored to work with you as you challenge your people to achieve a higher level of success in business and life!

SIGNATURE TEAMBUILDING

Signature Teambuilding

Experience. Learn. Grow. Change.

Teams experience success through Signature's connected suite of customized programs that push team members out of their comfort zones and help them discover new behaviors. Their unique process is the most effective way for individuals and teams to build relationships and trust, develop skills in problem solving and change management and break down barriers that limit team performance.

While the program incorporates physical challenges, participants do not need to be physically fit. **TeamQuest** is not a race or a competition, but a collaborative exercise overseen by facilitators who adhere to rigorous safety standards.

WaterWorx is a hands-on, strategic challenge that teaches flexibility and opens minds to new ways of thinking. The program teaches participants how to embrace change and use it to their advantage and be creative in a structured environment.

Shifting Gears is a customized series of connected problem-solving activities that requires your team to use all their talent, creativity and unique capabilities to succeed. The outcome: deeper relationships and new ways of thinking.

The Search for the Lost Dutchman's Gold Mine is a high-energy program that challenges participants to look at teamwork with fresh eyes. The Lost Dutchman is ideal for company retreats, conferences and other large-scale gatherings that bring together different stakeholders.
