

Hello Ladies,

As you had read in the SAVE the DATE, our theme is A Year of Heroes. It is a celebration of all the Frontline and Essential workers who were not able to separate themselves and remain at home to reduce the risks of exposure and the spread of Covid 19. They faced it daily and head on in efforts to provide care for others who needed medicine, care and comfort, and essential services during the Pandemic. Our proceeds will be directed to a National Foundation for Frontline Workers and so we ask that you cheer on those people in your lives that helped during this time. At the Luncheon, we would like your help to Display of Photos of Our Local Heroes. This will and can only work with your support. Closer to the event around the time of Memorial Day, we will be sending out an email to ask you to send in digital photos of those you wish to display. Please feel free to ask your guests to submit photos as well. Please send your digital photos of your loved ones, friends, and relatives who carried the torch for all of us when so many became ill. For instance, my husband, Dean Franklin, is an ER physician who worked every shift facing the threat of COVID 19 to care for others in need. His picture will be in a collage on photo poster boards to shine the light on our local heroes in a way to honor them and their continuing fight. So, look out for an email mid to late May. It will have more detailed instructions on how to submit them to us. These photos will be collected by one person and then placed on display only for the event. Reassure those whose photos are used that they are not being used for any type of publication or posting online. Once we collect the photos, we will then make photo boards preferred or Poster Boards with photos attached. So, shine a light on your hero who is a Frontline or Essential worker and bring these Real-Life Superheroes to Light.

Thank you for your support in this effort,

Sarah Franklin

Committee Member for Member Guest Tournament 2021
